I would like a ruling/opinion on how and elected official or state agency can block public email address paid for by Mississippi voters and taxpayers.

I have been trying to request information from Chancery Clerk, John McAdams, Gulfport County Courthouse, Gulfport, Mississippi.

clerk@goldinc.com

Since I could not get my email through, I phoned John McAdams and asked why my email was not getting through.

He stated that I was harassing him and that I have said some things he did not like.

I have all of the email's I have sent too Mr. McAdams and I cannot see where I harassed him. I can send them too you if you like.

I am requesting that I be unblocked so I can request information.

Any and everything paid for by voter and taxpayers is public and should not be treated like they personally own these email addresses.

I am making this request to you Mr. Phil Bryant because you seem to be the only elected official which answers my request.

Sincerely,

Steven A. McCaleb
